SUMMARY

As an aspiring computer science student with a passion for servers and a keen interest in Linux, I am eagerly seeking opportunities to apply and elevate my technical skills.

EDUCATION

SEE
Jugal english medium secondary school / kathmandu

+2
Bagmati college / Kathmandu

BCA
Gp Koirala Memorial college / Kathmandu / Present

WORK EXPERIENCE

Internship: Server Administrator
Shotcoder Tech - 3 Months

Gained hands-on experience managing and optimizing Linux servers. Performed
server monitoring, maintenance, and troubleshooting to ensure system stability.
Assisted in the deployment of containerized applications and managed server
environments.

Docker & Portainer
Successfully deployed and managed containerized applications using Docker.
Utilized Portainer to simplify container management, enabling easy monitoring, deployment, and maintenance across environments.

Grafana & Prometheus
Implemented monitoring solutions with Grafana and Prometheus. Configured Grafana dashboards for system monitoring and integrated Prometheus for metric collection and alerting, improving observability and reducing downtime.

Linux Server Management
Experienced in managing and optimizing Linux servers. Tasks include system upgrades, package management, automation via scripting, and securing environments. Proficient in troubleshooting to ensure high availability and performance.
